

BAY AREA WOMEN IN BLACK

To the Women in Black of Israel

In solidarity with the people of Gaza, the West Bank, Israel and Lebanon

Bay Area Women in Black **supports** your call for an end of the Israeli military occupation of Gaza and the West Bank.

We stand in solidarity with you as you **resist** the humanitarian catastrophe resulting from the excessive Israeli invasion into Lebanon.

We take pride in your insistence on **exposing** the morally corrupt actions of the Israeli government and its leaders.

We **organize** with the knowledge that the silent dignity of our street presence and vigils touches hearts and changes minds.

We **share** your determination to bring all parties to the table, including the democratically elected government of Palestine, to negotiate a cease-fire and immediate solution, both just and equitable.

We **honor** our shared history as a non-violent anti-militarist movement of protest.

We **celebrate** your persistence, determination and commitment in such polarized and nationalistic times.

We look to you with **pride**. Our daughters look to you strengthened by a vision of who they can become.
